

DEMO

Beamer Presenter

Current page on the projector, next page on the laptop.

Use the arrow keys or Space to continue.

What the presenter sees

Every Beamer PDF page is treated as one presentation step.

- The current page is rendered at large size.
- The following PDF page appears beside it.
- A separate audience window stays synchronized.

What the presenter sees

This page differs only by the next revealed point.

- The current page is rendered at large size.
- The following PDF page appears beside it.
- A separate audience window stays synchronized.
